Closer to the light!

Can you follow the dotted lines to connect the stars and take the space rocket to the sun? Don't bump into a shooting star!

Sudoku

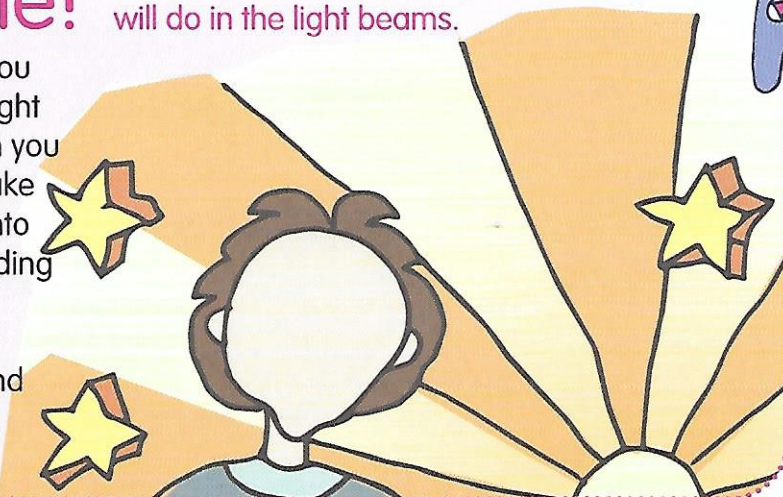

Can you fill the grid with light?

Each row, each column and each mini-grid should have just one of each type of light.

Shine!

Draw, or write about, the good things you will do in the light beams.

How will you let God's light shine from you today? Make this face into you by adding a smile, glasses or freckles and changing the hair.

A PRAYER TO SAY

Dear Jesus, thank you for shining on me. You light up my life with your love. Help me to let my light shine and share your love with everyone I meet. Amen.

Draw yourself in the window of the rocket.
